Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

On Page 1 of the specification, in the Continuing data, after "PCT/US97/07317, filed April 30, 1997, which" delete the phrase "claims priority from" and substitute --is a Continuation-In-Part of--.

The above amendment was necessary to provide the proper relationship between the instant case and the parent applications for which priority is claimed.

The Information Disclosure Statement (IDS) filed 11/23/05 has been considered. The reference cited in said IDS does not affect the patentability of the instant claims. Claims 1-18, 25-27, 29-41, 44-52 and 54-59 are allowed.

The Examiner's Amendment of 7/7/05 is reiterated.

Applicants' recent filing of application 11/250,546 (hereafter the '546 application) is noted. The claims in the '546 application are obvious over the claims in the instant

Art Unit: 1636

application and are rejectable under provisional Obviousness Type Double Patenting (ODP). For example, both sets of claims recite an RNA loaded (or pulsed as recited in the '546 application) APC comprising tumor specific RNA wherein the APC can be a dendritic cell, the tumor (source of RNA) can be a melanoma, bladder cancer, prostate cancer, etc. Both sets of claims also recite a method of treating a tumor in a patient comprising administering a therapeutically effective amount of RNA-loaded (pulsed) APCs. Since the provisional ODP rejection would be the only rejection, said rejection is withdrawn in the instant case; however, a provisional ODP rejection will be made (maintained) in the '546 application until the instant application issues. At that time the provisional ODP will be converted to a regular ODP rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Guzo, Ph.D., whose telephone number is (571) 272-0767. The examiner can normally be reached on Monday-Thursday from 8:00 AM to 5:30 PM. The examiner can also be reached on alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Irem Yucel, Ph.D., can be reached on (571) 272-0781. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
